 Kannugudi East, Thanjavur

OBJECTIVES

- Databricks Certified Data Engineer Professional with 1+ year of experience in Data Engineering, ETL, Data Pipeline development, and Big Data processing using Databricks, Apache Spark, PySpark, SQL, dbt, Delta Lake, and Azure technologies.

EDUCATION

UNDER-GRADUATE (2021-2025)

- V.S.B Engineering College, Karur.
- Percentage -84 %

CERTIFICATIONS

- Databricks Certified Data Engineer Professional
- SnowPro Core Certification

TECHNICAL SKILLS

Data Engineering:

- Databricks, Apache Spark, PySpark, dbt, Delta Lake, ETL, Data Pipeline, Data Warehouse

Programming:

- SQL, Python

DevOps:

- Git, Jenkins, CI/CD, Control-M

Analytics:

- Power BI

LANGUAGES

- Tamil
- English

PROFESSIONAL EXPERIENCE

CAPGEMINI

- Data Engineer / Software Engineer | Chennai, India
- Sep 2025 – Sep 2026

Client: TE Connectivity

- Developed and supported ETL workflows and SQL/PySpark-based data transformations for enterprise analytics.
- Processed large-scale datasets using Databricks, Apache Spark, PySpark, and Delta Lake.
- Built and maintained Data Pipelines, ensuring reliable data delivery and quality.
- Performed Data Validation, troubleshooting, and root cause analysis for production issues.
- Supported CI/CD deployments using Git, Jenkins, and Control-M.
- Collaborated with cross-functional teams to deliver analytics-ready datasets and reporting solutions.

WORKING EXPERIENCE

TE Connectivity – OneData Marketing & EcoFlow Project Data Engineer

- Developed SQL and PySpark-based ETL workflows for data ingestion and transformation.
- Utilized Databricks, Apache Spark, and Delta Lake for scalable data processing.
- Implemented Data Quality checks and resolved Data Pipeline issues.
- Supported workflow monitoring, production deployments, and performance optimization.

DECLARATION

- I hereby declare that all information stated above is true to the best of my knowledge and belief.
